Special to the Indianapolis Journal. DANVILLE, Ind., April 8.-The opening statement for the State in the trial of Fred Cassidy and Frank Stewart, charged with the murder of Wilson Haynes, for which Jack Hampton is now serving a life sentence, was made this morning by George W. Brill. He spoke for almost two hours, covering about the same points that were made in the opening statement in the Hampton trial. He said it would be proved that the defendants were in the drug store the night of Haynes's murder and assisted in carrying the body to the lumber shed where it was found after the fatal blow was struck. The first witness was Mat Masten, who gave the details of finding the recognition. To-morrow night will be heard body of Haynes as was related in the trial the address of Bishop Joyce on the occaof Hampton.

The jury is composed of A. A. Hollingsworth, John Hughes, Daniel Clark, A. W. Hollingsworth, D. F. Holtsclaw, Michael Collins, Bascom McClain, Oliver Wilhite, John M. King, George Doty, Thomas Edmondson and Samuel Hutto. The trial is attracting little interest, there not being fifty persons present to hear the evidence.

Flushed with their victory over Lautaro and other government vessels on the morning of Jan. 20, the insurgent steamer Padilla and two small consorts had been preparing at a port of Colombia south of the isthmus to bombard and take Panama. The cruiser Philadelphia having withdrawn her shore battalion and moved southward, the way seemed clear for the rebels, but they failed to take cognizance of the French cruiser.

Word was sent to the Protet that the insurgents contemplated a bombardment of tures shared in the movement to overcome the city and her commander promptly caused word to be sent to the rebel leader that if such an attempt was made during his stay in the port the Protet would sink the Padilla and all other insurgent vessels that could be found The rebel commander paid little attention

Special to the Indianapolis Journal. WASHINGTON, April 8.-Members of the Indiana delegation are forcibly bringing t the attention of the treasury officials the tract for the Indiana public building to John LAFAYETTE .- The trustees of the State | Pierce. He is notorious at the Treasury Department for getting into trouble with his buildings by his wrangles with union labor. The big federal building at Chicago has been set back for years by his differences with the union bricklayers and stonecutters. It will be recalled that work on that building was stopped for months on account of a strike. The laying of the cornerstone had to be postponed until he could settle his labor difficulties. Under the law it is not essential that the contract shall go to the lowest bidder. All things must be considered. The rapidity with which the work will progress is of paramount importance. The treasury officials

Admiral Bradford, chief of equipment bureau of the Navy Department, expert on coal supplies, returned to Washington last night from a rapid trip of inspection stations in Cuba. The Platt amendment provides that immediately after the erection of the independent Cuban government the United States and Cuba shall negotiate for the acquisition by the former of suitable naval and coaling stations in Cuba. Nothing developed in the course of the trip to change Admiral Bradford's formerly expressed views as to the proper location of four naval and coaling stations in Cuba, namely at Havana and Nipe on the north coast, and Guantanamo and Cienfuegos on the south. The exact location chosen in Havana harbor, at Triscornia, on the east side of the bay, is believed to be sufficiently removed from the city proper to make acceptable to the Cubans, as it would involve no menace to the city or its defenses.

A hasty inspection of San Juan harbor, Porto Rico, resulted in the immediate condemnation of that place as a site for a naval station, not only because of the impossibility of protecting the harbor from easy and direct fire from the open sea, but also because of dangerous entrance and the enormous amount of money that would be required to make the harbor approachable for heavy ships. St. Thomas, in the Danish West Indies, it is stated, is the only perfect harbor in that section of the West

Ruddy, Clear Faces Are Indications of Spring Health.

PAINE'S CELERY COMPOUND

Makes Pure, Red Blood and Establishes a New and Vigorous Vitality.

Men and women who have used Paine's Celery Compound, and all who have a knowledge of the wonderful cures it has wrought, particularly in springtime, unite in declaring that the great medicine is a national blessing.

The use of Paine's Celery Compound at

this season by the weak, nervous, sleepless and those afflicted with rheumatism, neuralgia, dyspepsia, liver trouble, kidney disease and impure and poisoned blood means pure, red blood, perfect digestive vigor, ruddy, clear faces, renewed strength and permanent health. Thousands of grateful people have sent

in unsolicited letters testifying to cures made by Paine's Celery Compound after the failures of doctors and use of other medicines. The wealthy and poor, the noted and famous of our large cities and the quiet people of our rural districts have sent the glad news that at last they have found a remedy (Paine's Celery Compound) that has restored lost vitality and made them themselves again.

No proof of the efficacy of Paine's Celery Compound as a blood purifier and renovator can be more conclusive or forcible than the strong testimony offered by Mr. Ira Williams, of Jamestown, N. Y., one of the most popular traveling salesmen on the road. Mr. Williams says: "It is now about eight years since I used

Paine's Celery Compound and cleared my system of impurities from which I suffered severely on account of a breaking out all over my head and part of my body. I spent hundreds of dollars in employing the best physicians, but they could do nothing for me. By the use of your wonderful medicine my recovery was complete. I am a traveling salesmen, on the road most of the time, and sincerely believe that I have helped thousands of others by my personal properties of Paine's Celery Compound. It certainly merits its wonderful success, and it gives me great pleasure to say so.'

Any Medicine. It is a short road to trouble when the food does not supply the right material to rebuild the brain. You cannot use the brain without breaking down small particles every day, and you cannot rebuild unless the food furnishes the right kind of building material, and that is albumen and phosphate of potash-not such as you get from the druggist, but such as nature stores in

Grape-Nuts contains these particles and well-defined results can be obtained from using the toothsome, delicious food.
